Stidham Reconstruction & Investigation, L.L.C.

Personal

Becca L. Stidham

Statement of Qualifications

I have grown up in this field as SRI is part of a family-owned business. Beginning in high school I worked at S.R.I. during the summers and sometimes on weekends as I have always been interested in the work that is done here. While in high school I went through the C.N.A. program at Hazard Community and Technical College and did my clinical rotation at the Hazard Nursing Home. I obtained my C.N.A. License on May 05, 2017. Following high school, I continued to work at S.R.I. and enrolled in H.C.T.C where I have obtained an Associates in Applied Arts degree. I am currently enrolled at Eastern Kentucky University working toward my B.S. Degree in Criminal Justice. I am a licensed private investigator and have completed the classes from IPTM where I became a traffic collision reconstructionist. At S.R.I. I continue to advance my knowledge by taking advanced training in our field.

I work daily with the 6 other investigators at S.R.I. and 3 other traffic collision reconstructionists getting hands on practical experience in every aspect of what S.R.I. On a daily basis I apply the education and training that I have obtained.
