Layne A. Kerley

Stidham Reconstruction & Investigation, L.L.C.

Statement of Qualifications

I am an Accident Technician with Stidham Reconstruction and Investigation LLC. I am also studying mechanical engineering at National Park College. I have been assisting with Accident Reconstruction since July of 2023.

I began my career with Jackson Reconstruction as an Accident Technician. In the military I also operated several types of military style vehicles, such as a three-quarter ton, one-ton trucks, High Mobility Multipurpose Wheeled Vehicles (HMMWV), and M1 Abrams series Battle Tanks.

After my military service was completed, I worked for Nevada Gold Mines for a year, before beginning my employment with Jackson Reconstruction. In my role, I learned how to properly perform duties applicable to my skills, such as documenting and describing photographs taken, mapping scenes with remote drones, and documenting vehicles involved in collisions.

I later began working for SRI in 2023, continuing to build upon my skills as an Accident Technician. In 2024, I began work for Kerley Reconstruction as well.

In May 2024, I left Jackson Reconstruction, continuing to build on my skills with SRI and Kerley Reconstruction.
